Built by Joseph Khaled · Available for Custom AI Solutions

AI Autopilot Agent

- 20+ CDP-powered browser tools
- Click, type, drag, autofill, scroll
- Smart 4-step fallback click chain
- Stops after 3 consecutive failures

Gemini Multi-Modal AI

- Gemini 2.5 Pro / 2.5 Flash / 2.0 Flash
- Vision: reads any page / document
- Image Studio, Song Studio, Video Studio
- Veo video generation + multi-clip stitching

Storage & Auth Awareness

- readStorage: localStorage / sessionStorage
- Cookie inspection & auth state check
- Google OAuth sign-in built-in
- Whop.com subscription management

Chrome DevTools Protocol

- Trusted mouse events (isTrusted:true)
- DOM search incl. shadow roots
- Real drag-and-drop events
- Network response interception

Document Intelligence

- exportPDF: any page → PDF in 1 call
- snapshotPage: deep DOM structure read
- readNetworkResponse: raw API JSON
- writeChunk: unlimited-length documents

Global & Enterprise Ready

- 55-language landing page (pre-rendered)
- White-label multi-tenant institutions
- Flask backend + PostgreSQL
- Role-based access, per-member expiry
