

Your All-in-One AI Creative Studio — Powered by Google AI Studio

Built by **Muhanad Sughayar** · AI Developer & Automation Engineer
100% Free · No Subscriptions · Use Your Own Google API Key

AION AI is a Chrome Extension that gives you direct access to Google's most powerful AI models — Gemini, Veo, and Lyria — right inside your browser. No monthly fees. No middleman. Your API key, your data, your control.

■ Snap & Build System — Your Superpower

■ Snap Vision

Snip any part of your screen. Analyze bugs, documents, or layouts. Get answers, translations, and fixes in seconds.

■■ Live App Builder

Describe any tool in plain English. AION writes the code and launches a working, interactive app inside your browser — websites, games, calculators, instantly.

■ Quick Actions

One-click commands: Build, Research, Search, Read, Code, Continue. The fastest way to get things done with AI.

■ The Creative Suite — 4 Professional AI Studios

■ Veo 3.1 Video Studio

Text to cinematic video. High-quality sound auto-synced. Multi-clip storyboard editor. 16:9 / 9:16 / 1:1 ratios.

■■ Broadcast Studio

Turn any file or image into a multi-voice AI podcast. Meet your hosts: Zephyr, Kore & Fenrir.

■ Nano Banana Image Studio

Edit, upscale, and create photorealistic images with professional precision. Multiple styles in seconds.

■ Lyria Music Studio

Compose studio-grade background music. Just describe the vibe. Google's Lyria model — directly in your browser.

■ Autopilot Agent — 21 CDP Browser Automation Tools

Give AION a task in plain English — it executes it live in your browser. Real clicks, real keystrokes, real results. Not simulated.
